# Dispatches From The Territorial Governor

Although it's two months away, I'm getting prepared for the Annual T/G Summit. I have just received the annual "Territorial Bulletin" and here are the items that will be voted on at the meeting:

**Item 1 – Lever of Long Gun Closes.** If the lever closes on a long gun after it is set down open, should there be a penalty if a round is in the action and a "no call" if there is no round?

**Item 2 – Dropped Ammo, Should the MSV penalty for picking up/retrieving dropped opr ejected live rounds be eliminated if the said ammo can be retrieved SAFELY.** .. There was discussion and concern about varying perceptions of the word "safely". As this has been voted down before, it was felt it might have a better chance of passing if something was said about not retrieving ammo from the ground. Others felt that if someone could safely retrieve a round from the ground, it was okay.

**Item 3 – Straight Rifle Trigger Modification --** Recently, the issue of modifying rifle triggers from a curved profile to a straight profile has been discussed. This modification sets the trigger closer to the lever so it is less likely to wound the shooter's trigger finger.

## **Item 4 – Should the Bisley Hammer/Grip-frame restrictions be removed from the Shooter Handbook “Firearms Covenants”?**

### **DISCUSSION ITEMS – NON-VOTING ITEMS:**

#### **Discussion Item 1**

Lindholm Brothers approached Hipshot at the Western Regional asking that a minimum rowel size for B Western and Classic Cowboy be established, as there is not a stated minimum size. This has been discussed by the RO Committee, and the determination has been made based on Coyote Calhoun's intent that the minimum rowel size be set the diameter of a quarter (actually .995" = 24.26mm).

There was also discussion of requiring jingle bobs, but, according to discussions within the RO Committee, jingle bobs were rarely used prior to 1900. Therefore that should not be a requirement, but of course can be allowed.

#### **Discussion Item 2**

**ATTIRE** -- The SASS dress code is explicit that no **logos** are allowed, however, the problem remains that some people dress **so minimally**. For example, a top shooter (male) wore a short-sleeve shirt and Wranglers at EOT. Another was supposedly shooting in **WHITE SNEAKERS** ! What's next? Baseball caps instead of a traditional cowboy hat? Should the minimum clothing requirements be increased??

#### **Discussion Item 3**

Single shot Shotguns are allowed in Frontier Cartridge, Frontier Cartridge Duelist, Frontiersman... The rule book will be updated to state that it must have an exposed hammer and may have an ejector for each of those categories.

#### **Discussion Item 4**

The Shooter's Handbook states that "Original barrels may be replaced with new barrels of correct styles (e.g., round, octagon, half-round) for that type of firearm." Comments have been made that original pistols did not have octagonal barrels. The wording in the Handbook will be clarified to spell out that octagonal barrels are allowed on pistols. This is already spelled out in the Handbook by referring to "Type of firearm". Model P Colts/Clones and 1851 Colt navies/clones are single action revolvers.

#### **Discussion Item 5**

There was discussion about **ONLY** allowing the shooter to stage or move long guns without posse help/interference. This would align the SASS Action Shooters and the Wild Bunch Action Shooters rules. Not too much discussion, but some felt that this could slow a posse down. Happy Jack stated that it did not seem to slow down the WBAS matches.

**Start thinking about how YOU want me to vote** when I fly/drive to MISSOURI to cast your votes in December. Although I rarely (read “have yet to ever”) receive any response to these requests I make in this column, I DO look forward to hearing the opinions of those who cannot get the time to attend our monthly Merlin Marauder club meetings at the Black Bear Diner each month. You are ALL “Voting Members”.

**“Old West Words”** as taken from the “Dictionary of the American West

**“Leading the Pelican”** - For a soldier to be under arrest. A humorous expression of the 7<sup>th</sup> Cavalry, according to Libby Custer. The outfit had caught a pelican and was bringing it along at

the rear of a column. Thus, a disgraced soldier (be he officer or enlisted) was placed in the rear in disgrace and was known as “leading the pelican.”

“**Huckydummy**” – Cowboy talk for biscuits with raisins.

“**Grass Freight**” – Goods freighted across the plains in wagons pulled by oxen instead of mules. It was so called because the oxen fed on grass along the way, while mules required corn to be hauled along. Goods hauled by mules (called corn freight) arrived quicker but was more expensive. **Sweetwater Jack**
